PREFACE.

A catalogue of the manuscripts bought for Government in the Bombay Circle on the plan of Dr. Aufrecht's Catalogue of the Sanskrit Manuscripts in the Bodleian is under preparation by various well-known Sanskritists. It will, however, be some years before it can be published, as we know from our past experience of such catalogues. At the same time it does not promise to be complete as only certain classes of manuscripts have been taken up, and not all. It is, therefore, hoped that these reprinted lists giving the mere names of works and of their authors accompanied with an Index will not be unwelcome.

Out of the collections represented here half the collection of 1868-69 (Nos. 1—21) and the collections of 1870-71, 1871-72, 1872-73, 1873-74, 1874-75, 1875-76, 1877-78 and 1879-80 were made by Dr. Bühler and the remaining half of the collection of 1868-69 (Nos. 22—47) together with those of 1869-70, 1880-81 and 1881-82 by Dr. Kielhorn. The collections called A of 1879-80 and A of 1881-82 and those of 1882-83 and 1883-84 were made by Dr. Bhandarkar and the collections called A of 1882-83 and A of 1883-84 by Dr. Peterson. The collection belonging to the old Sanskrit Pāṭhaśālā of Poona is here called "Vishrambag Collection" as the Pāṭhaśālā was located in the palace of the Peshwa bearing that name.

The list of the collection of 1868-69 in the usual tabular form giving the number of leaves, &c., and that of the Vishrambag Collection in English are published here for the first time. All the other lists are reprints of those published previously or while the present catalogue was in the press. The entries under "Remarks" in the first list occurring here (pp. 1 and 2) as well as those in Italics in the other lists are new. While looking over the proofs, doubts arose in my mind as to the accuracy of a great many of the original entries either from the nature of the entries themselves or from some other circumstance. In all these cases I have looked up the manuscripts and most of the new entries just referred to are due to such a reference. But I do not believe I have detected all such inaccuracies. They can be discovered and corrected only after a close examination of each and every manuscript. This is a work of time and has not been found possible in the present case. It is, however, now being partially done, as I have stated above, by some of the most well-known European specialists.

In the preparation of this catalogue and in all doubtful cases I have availed myself freely of the advice and guidance of Dr. R. G. Bhandarkar.
